EuroSort Inc. Awarded Contract for David's Bridal

Owings Mills, Maryland, January 15, 2006 - EuroSort Inc. announces that it has been awarded a contract for a flat item unit sorter from David's Bridal to be installed in its new national distribution center located in Bristol, PA. The sorter will have 202 uniquely designed chute destinations which will allow David's Bridal to prepare for its future growth plans. The sorter solution will be operational in August 2006.

The EuroSort ESF sorter is a flat tray sorter unlike any that you have experienced before. Its patent pending features make it the most reliable, quiet, simple, flexible, accurate and affordable tray sorter available for sorting apparel, books, multi-media, jewelry, soft goods, small parcels, optical products, pharmaceuticals and flats.

Join EuroSort at NA 2006 (March 27th-30th) in Booth 2834 to be introduced to the latest innovative, low cost, flexible sortation technology on the market today.
